

# YOUR SAFETY IS OUR TOP PRIORITY

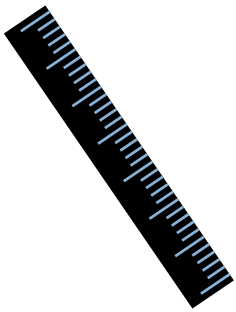

Here are the measures we are taking to ensure safety & health comes first.

## ENHANCED SANITATION & CLEANING

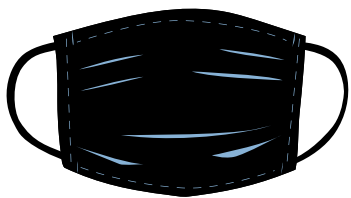

We are observing cleaning practices that exceed the standard requirements. All tables and seating surfaces are thoroughly cleaned and sanitized in between each seating and high traffic surface areas are cleaned every 30 minutes.

## SOCIAL DISTANCING

We have revised our floor plan to ensure there is 6 feet of space in between guests. Please observe social distancing guidelines within the restaurant.

## FACE COVERINGS

Our staff will remain in facial covering throughout the duration of service. We also require that guests wear face masks when entering the restaurant and when using our restrooms. Masks are not required when you are seated.

## HAND WASHING

Please remember to always wash your hands for a minimum of 20 seconds in the restroom. Our staff does the same.
